STANDARD'S NO LEAD C/06-04 GLOSSY GLAZES

are a series of related clean, clear colors. These lead free glazes fit Standard Clays 103, 104, 105 & 106. They are best when applied by dipping or. The glazes can be used on both functional and non functional ceramics. They should have suspender added to them.

GLAZE SUSPENDER # 1 is the same as CMC look for it on the ceramic materials page

To prepare add 2 oz. CMC to 1 quart of hot water. Shake well and let stand overnight. This gives a heavy viscous mixture that can be added to liquid glaze as desired.

Standard Ceramic Supply Co. Prepared Base Glazes
